

# Light Modes Breakdown

## ● Red Light - Anti-Aging

Boosts collagen and elastin to help soften fine lines, improve firmness, and restore skin's natural glow.

Best for: Aging or dull skin

## ● Blue Light - Acne Care

Targets acne-causing bacteria, reduces breakouts, and helps control excess oil.

Best for: Acne-prone or oily skin

## ● Yellow Light - Redness Relief

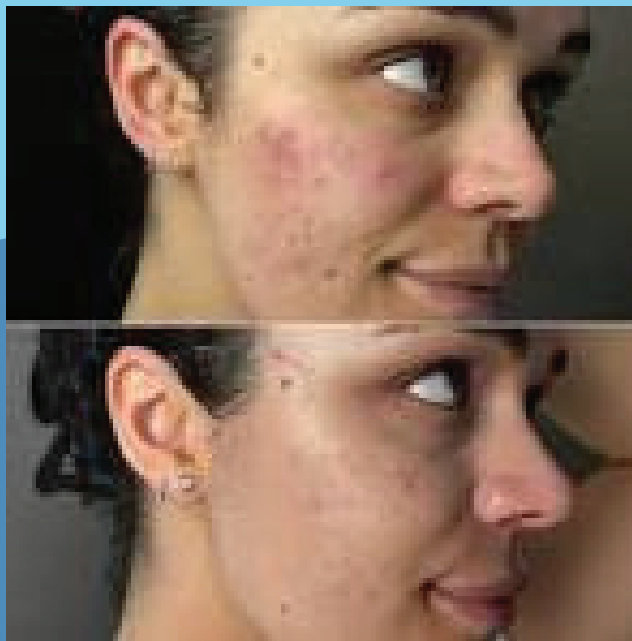

Calms sensitive skin, reduces redness, and supports healing and circulation.

Best for: Rosacea, redness, irritation

## ● Infrared Light - Deep Healing

Penetrates deeper to support cellular repair, reduce inflammation, and promote recovery.

Best for: Inflammation, pain relief, skin recovery

## Why LumaArc?

- ✓ Professional LED technology
- ✓ Non-invasive & pain-free
- ✓ Suitable for all skin types and tones
- ✓ Easy at-home treatments
- ✓ Backed by proven light wavelengths

Designed for convenience, LumaArc delivers spa-level results without the spa appointment.
